

## **CLOTHING OPTIONAL SCUBA**

Are you looking for a true clothing optional scuba opportunity – this is it!

Looking to share the experience with others who enjoy the same?

Looking for a vacation that does not require you to travel great distances? Look what we have for you!

Both a scuba live aboard adventure for the diver and beautiful beaches for those who want to stay on land.

Fantasy Island – 30 acres of unrefined beauty where your imagination can run wild.

### **Cruise & Island Adventure**

Join us at our gathering point in Southern Florida and board the yacht for an adventure cruise to Fantasy Island. Once on the island, you can let your mind run wild, in the company of twenty or so other couples who share your interests.

The Island itself is thirty acres, half of which is wooded and filled with back trails to private adventure. Enjoy a four wheeler trek to see what's out there. In the center of the island is a very large private blue lagoon surrounded by white sand beaches for cookouts, snorkeling or scuba diving.

Sleeping accommodations remain on board the yacht for the duration of the visit. Those hearty enough to bring their own camping gear are certainly welcome to do so.

Scuba diving from the shore is open to any members wishing to do so, there is some gear and compressor on board the yacht. Sorry, but air fills are only available to certified divers.

You will find that the yacht itself is literally a minicruiseship in every way. Plenty of room for any imaginable activities and our imaginations really run wild.

### **Clothing Optional Activities**

For those seeking fun in the sun will be pleased to know that once the yacht leaves port, nudity on the decks is allowed, until we enter the harbor to clear customs in the Bahamas, the time on board the boat and the island may be as bare as you dare.

Scuba activities are conducted from the yacht itself which is fully equipped. Most evenings, we will return to our island home.

### **Evening Beach Activities**

The day temperatures are wonderful, and even temps tend to be somewhat cool on the decks of the yacht. Evening activities are offered on the yacht and on the beach for those interested.
